■ Competencies

Web development projects

Site template development

Responsive design

Technical Support

Web Security

As a web developer, my career goal is to create engaging and functional websites that not only meet the needs of clients but also exceed user expectations. With a strong foundation in coding languages such as HTML, CSS, and JavaScript, I aim to leverage my technical expertise to deliver innovative and dynamic web solutions. Additionally, my keen eye for design and user experience allows me to create visually appealing and intuitive interfaces. By staying up-to-date with the latest industry trends and continuously honing my skills, I aim to contribute to the success of organizations by driving online presence and enhancing user engagement.

■ Work History
